ROLEC

The UK's largest range of outdoor electrical equipment

We're Recruiting

We have new and exciting career opportunities available

EV CHARGING   **MARINA SERVICES**   **CARAVAN HOOK-UPS**

Who are Rolec?

Rolec Services has been a world-leading specialist in the design, manufacture, installation and supply of an extensive range of outdoor electrical equipment for three decades.

Our products include electrical connection, electric vehicle charging, hook-up and distribution equipment. The company presently employs approximately 140 personnel in its bespoke, purpose-built office, showroom, warehouse and factory complex – in addition to having a distribution network of representatives in over 40 countries.

Rolec remains committed to a programme of continuous development, investment and innovation to ensure the provision of high quality and reliable products at competitive prices.

Rolec Services consists of three unique divisions, each focusing on a particular sector:

ROLEC
EV Charging

Manufacturers of the UK's largest range of smart AC and DC rapid chargers, suitable for all locations.

ROLEC
Marina Services

Global specialists in providing marina services across the most iconic marinas and waterside locations.

ROLEC
Caravan Hook-Ups

Leading experts in electrical hook-up and utility for caravan parks and holiday homes across the UK.

App Developer

A leading manufacturer of EV Charge Points and provider of OCPP back office and payment solutions seeks an Application Developer.

Working within our development team, you will support the development and maintenance of mobile and online applications and websites. The role will be predominantly focused on the application code and database aspect of code development, with some projects requiring full stack development skills and knowledge. As part of the role you will be required to engage with a wide range of different technologies and code build methodologies.

**Application Developer Duties:**

- Build reusable/maintainable code optimised for speed and scalability
- Maintain iOS and Android mobile applications
- Write stored procedures and database calls
- Provide support to operations teams
- Participate in planning and design

To be part of the team you'll need:

- BEng/BSc in Computer Science or another relevant STEM subject
- 2+ years' experience working in application development in a role requiring a similar skill set
- Experience in web design including, PHP, JavaScript, HTMLS, CSS3
- Experience with mobile specific features such as push notifications, asynchronous request handling, AJAX, RESTful API, and app store releases
- Understanding of SQL and the ability to write dataset queries
- Experience in code versioning, Git
